spelled, how it may be hyphenated, how it is pronounced, what its various forms are, what its are. They also expect to find whether a word is technical or general, whether it can be used in polite company or not, and even whether someone who is called a certain word is justified in feeling offended. They want unfamiliar objects Illustrated and particular places pinpointed on between the covers of a dictionary the knowledge of the world as reflected in their language. Above all, they demand that this knowledge be accurate The dictionary has traditionally been the only of people. In it they expect to find how a word is meanings are, and what its origins and history breviations, symbols, synonyms, antonyms, usage notes-in short, people expect to find condensed and up to date. Indeed, why not? The dictionary is often the only reference book of any kind that source of information on language for the majority maps; they want biographical information, geographical, demographic, and political data, abmany people ever own.

abridgment of The Random House Dictionary is an abridgment of The Random House Dictionary of the English Language—The Unabridged Edition, and its style follows that of the RHD. No dictionary, no matter how extensive, could record the entire English language. It is obvious, then, that the editors of any dictionary are compelled to exercise discretion in what is to be included. The goal cannot be completeness: the goal must be judicious selectivity. There is no dearth of re-
